CELEBRATING 36 SEASONS

*"Feel the Spirit"*

## 2020-21 Playing Fees

Dear CCDCC Player,

Please see below information pertaining to this year's fee structure, which has been changed due to the club's management of funds in this COVID period. I am sure that those who play other sports at elite level will agree that they are still quite cheap in comparison, even when the sport of cricket has more running costs involved. The CCDCC Committee is focused on maintaining player costs at one of the lowest levels across the SCA clubs even though the ongoing costs of improving and maintaining one of the best cricket complexes in the State are significant.

Changes due to COVID will see you find two categories of fees for players. 'Returning' players and 'New' players.

In managing the club's finances responsibly throughout COVID, it was determined by the CCDCC Committee of Management to reduce the annual order and have returning players use some of their gear from last season at reduced costs. This decision was made back in June when our clothing orders for the season were placed during a period of financial uncertainty.

This CCDCC players will continue to use MyCricket in the Registration process.

### How do I pay my fees this year?

All players will pay their fees via MyCricket. This is a simple process where you will login under your personal MyCricket Id. This id number is displayed beside your name when it is viewed on the MyCricket individual player stats web page.

If you have forgotten your personal MyCricket password, either follow the prompts or let me know via email immediately. I can alert MyCricket to resend you a new password.

Below are the links for you to access the MyCricket 'Club Registration Fee Process'. The site will walk you through the process very easily and accepts your Visa or Mastercard.

Should you have any problems with the process please contact:
